GRAMMAR 23.1 **GRAMMATICA 23.1**Declension of Pronouns: Stem Formation**Declinazione dei pronomi: fondamenti delle radici**

Pronouns are modified according to case and quantity by inflecting their tail end and by the addition of the post-positions listed in *Grammar 22.2*. For cases other than Nominative, the tail end inflection of pronouns is adjusted to “-r” “-aa”, as follows before adding a post-position:-

I pronomi sono modificati secondo il caso e la quantità cambiando la loro parte finale o aggiungendo la post-posizione in elenco in *Grammatica 22.2*. Per i casi diversi dal nominativo, l’inflessione della parte finale dei pronomi si forma con “-r” “-aa”, come i seguenti prima di aggiungere una post-posizione:-

আমি aami	তুমি tumi	সে se	তা taa	আপনি aapani	তিনি tini
-------------	--------------	----------	-----------	----------------	--------------

become diventa:-

আমা- aamaa-	তোমা- tomaa-	তা- taa-	তা- taa-	আপনা- aapanaa-	তাঁ- taa^-
----------------	-----------------	-------------	-------------	-------------------	---------------

Declension of Pronouns: Terminations and Post-Positions

Declinazione dei pronomi: terminazioni e post-posizioni

One can extend the model “আমি, aami”, “আমা- aamaa-”, and so on for the various cases, as shown below. There are other post-positions not shown here but which are listed in *Grammar 22.2*. They can also be used. The pattern shown below (for “আমি...” “aami...”) also applies to the various cases for the other pronouns shown above. (See *Grammars 23.3-6*.)

Si può estendere il modello “আমি, aami”, “আমা- aamaa-” e così via ai vari casi, come mostrato di seguito. Ci sono altre post-posizioni non mostrate qui ma che sono elencate in *Grammatica 22.2*. Anche queste possono essere usate. Lo schema mostrato di seguito (per “আমি...” “aami...”) si applica anche ai vari casi per i pronomi mostrati più avanti. (Vedi *Grammatica 23.3-6*.)
